

222d BSB Baumholder Local Traffic Danger Areas

- **Baumholder area has several traffic danger areas which can all be negotiated by decreasing speed when roads are wet, icy, or snow covered.**
- **A majority of the traffic accidents in the Baumholder area involve excessive speed for road conditions.**
- **Slow down!**

222d Base Support Battalion

Ringstrasse Entering Iron Man Crossing Gate

Hazard: Barriers are close together and a downhill slope is present entering the gate.

Precautions: Slow down prior to the center barriers. Icy or snow covered road speed should be decreased to 10 kph or less.

222d Base Support Battalion

Freisen Hill L348 Enroute to Baumholder

Hazards: Impassable to most vehicles when roads are icy or snow covered.

Precautions: Use the Birkenfeld exit and then follow the signs to Baumholder.

222d Base Support Battalion

Frauenberg Bridge L176

Hazards: Black ice forms on bridges before any other road surfaces. Sloped roadway and curve is very dangerous when icy or snow covered.

Precautions: Slow down prior to bridge. Icy and snow covered bridges speed must be reduced prior to the bridges.
